What is AEROMART SACHEON?

The aerospace sector is one of the main focus for the Korean government as a plan has been announced to raise the country's production.

In this context BCI Aerospace organizes the third edition of Aeromart to:

- Help SME/SMI find partners at an international level to fill their specific co-operational needs
- Promote relationships between large companies and SMEs/SMIs offering direct contact opportunities to the latter
- Open international market access to SMEs/SMIs exhibitors

Aeromart Sacheon includes a 2-day program of BtoB meetings, workshops and key conferences dealing with the latest topics of the aerospace and defense sectors. This is not a traditional show, it is a BtoB meetings matchmaking platform.
